East Hampton, New York 11937

Architectural Review Board

Deer Fence Applications

Due to the proliferation of deer fencing in the Town of East Hampton the Architectural Review Board has developed the following Guidelines for review of said fences. These guidelines were established due to the Department of Natural Resources concern of the escalating impact of these type of fences on the natural movement, feeding, and migration of deer in the town. Until further notice the Board will implement the following guidelines on deer fencing:

- Deer Fencing will be allowed along only two (2) property lines of a given lot.
- All other sides of a proposed fence must be a minimum of 20'-0" off of any adjacent property line.
- The enclosure of the fence, all sides, must be 50% or less than the total lot coverage.
- Other existing regulations concerning fences, walls, and berms may apply.

See Example below
